SUPPLEMENTARY DETAILS (continued)

9. Reverse Lebensohl after our 1NT is overcalled. Lebensohl after opponents' weak 2 bid is doubled.

- In either case, responder's bid at the 2-level is weak (or to play if a free bid). If strong, with a 2-level bid available, jump, and if intermediate, use Lebensohl and then bid the suit.
- Using Lebensohl, immediate responses at the 3-level are strong; using reverse Lebensohl, 3-level non-cue-bid responses are weak, except 3♣ is always strong, inviting 3NT, showing 6+ cards to 2 top honours.
- In either case, a 2NT bid by responder asks partner to bid 3♣ which can be passed by a weak hand. If doubler is very strong, he can break the transfer.
- 'Direct Denies a stop': An immediate 3NT by responder denies the other major(s) and denies a stop in opponents' suit. Without a stop, opener or doubler bids 4m. An immediate cue-bid promises the other major(s) but denies a stop. 3NT or cue bid after Lebensohl or Reverse Lebensohl promises a stop.
- Strength:** Depends on vulnerability and the level we are likely to have to bid to. Doubles of any weak 2 always promise an opening hand, with 4 cards in the other major (or 4-3 after weak 2♦) unless very strong. Worst case: Double of weak 2♠ at red promises 15+ unless distribution is exceptional.
- Responder's strength:** while 9 HCP is the rule-of-thumb lower limit for a 'strong' response, use the situation as a guide to partner's likely strength and the level you will commit to or want to end up at.
- Length:** Forced responses only promise 4 cards; free bids promise 5 cards except where partner has promised 4.
- Doubles of opponents' suit bid over our 1NT opening:** Doubles of artificial bids are lead directing. Over natural 2M overcall – penalties (alerted). Over natural 2m – T/O and competitive (stronger hands jump or use Reverse Lebensohl).
